SUMMARY

A self-taught programmer with a passion in AI and innovative technologies. After gaining valuable industry experience at Cognizant for nearly two years, I decided to pursue my interest in AI and Web Development. I have completed several certifications in Python and AI. My journey has been one of continuous learning and growth, and I am excited to bring my skills and enthusiasm to new challenges.

SKILLS

HTML, CSS, JavaScript, Tailwind CSS, Python, MySQL, RestAPI, Langchain, Agno, FAISS, OpenAI API, Vector database, AI Agent, NLP, Streamlit, Agno, Web Scraping, Java-Selenium, GitHub, Postman, GitHub Actions, Vercel, Rally, Jenkin, Docker.

WORK EXPERIENCE

Cognizant

Programmer – Bangalore, KA India

- Automated regression and API testing using Java-Selenium and Python, developing 15+ test script that increased testing efficiency by 30%.
- Supported 4 successful production releases by writing strategic test cases and resolving issues through manual and automated testing approaches.
- Collaborated effectively with the clients and cross organizational development teams while actively participating in Agile sprint planning and daily stand-ups.

PROJECTS

Financial AI Agent

<https://financialagent01.streamlit.app/>

- Developed multi-AI agent system with Agno, OpenAI and Claude LLM models.
- Implemented real-time data retravel systems, analyzed stock fundamentals, and delivered actionable insights based on the latest news
- Used RAG for context retention with YFinance and DuckDuckGo tools.

UI Clone

https://deepakmalikk.github.io/shopify_ui_clone/

- Translated Figma designs into responsive static web pages using HTML, CSS and Tailwind CSS.
- Developed over 10 web pages, demonstrating strong front-end development skills.
- Ensured high attention to visual details in all implementations.

CERTIFICATIONS

- | | |
|---|--------------------|
| • Python Bootcamp | Udemy |
| • Fundamentals of Agents | Hugging Face |
| • Langchain for LLM Application Development | DeepLearning.in |
| • HTML and CSS for modern Web Development | LearnCodeOnline.in |

ACHIEVEMENTS

- Achieved a top 5 ranking among Cognizant GENC associates across India in challenging open-book hackathon
- Earned 'Employee of the Month' honors 3-4 times a year for outstanding performance and dedications.
- Consistently recognized as a top-performing team member for the exceptional contributions and collaborative efforts.

Education

Bachelor of Computer Applications

New Horizon College, Bangalore, Karnataka, India | CGPA: 9.42/10
